## PROFESSIONAL SUMMARY

---

Front-end developer with a strong foundation in modern web technologies including JavaScript, React, and Next.js. A self-taught programmer with a degree in Software Engineering and hands-on experience building interactive, responsive, and performance-optimized websites. Passionate about clean code, UI/UX best practices, and eager to launch a professional career in a collaborative tech-driven environment.

## EDUCATION

---

University of Lattakia, Informatics College of Engineering

2019-2024

Bachelor of Software Engineering

## PROJECTS

---

- Built and deployed multiple real-world websites using React, Next.js, and Tailwind CSS.
- Developed responsive and accessible user interfaces with a focus on performance and user experience.
- Integrated RESTful APIs and implemented authentication using JWT.

**Linkora**, GitHub: <https://github.com/Mohammad-Alshaar/Social-networking-site-in-React.git>

- Built a responsive social media app using **React** and **MUI**, featuring user profiles, posts, and comments.
- Implemented post and comment CRUD operations with real-time UI updates using **React Context API**.
- Enabled profile browsing, editing, and interactive user engagement with clean, modern UI components.

**Blogs website**, GitHub: <https://github.com/Mohammad-Alshaar/blogs-website.git>

- Developed a full-stack blog with **Next.js**, supporting auth, comments, and admin content management.
- Implemented a secure API with **Prisma ORM** and integrated user roles (admin/user) for access control.
- Designed a fully responsive UI with dynamic routing, server-side rendering, and modern UX patterns.

**Weather Application**, GitHub: <https://github.com/Mohammad-Alshaar/Weather-app.git>

- Built a weather app with **React.js**, **Redux**, and **OpenWeatherMap API** for real-time data.
- Managed global state using Redux, following modular and scalable architecture.
- Implemented multilingual support with **i18n**, and styled UI with clean, mobile-friendly **CSS** design.

## SKILLS

---

- **Languages & Frameworks:** HTML5, CSS3, JavaScript, TypeScript, React, Next.js.
- **Styling Tools:** Tailwind CSS, MUI, Bootstrap, Framer Motion.
- **APIs & Auth & State Management:** JWT, REST APIs, Redux, Context API.
- **Tools & Deployment & Other:** Problem Solving, Responsive Design, Git, GitHub, Vercel, Netlify.

## LANGUAGES

---

- **Arabic** (Native), **English** (Fluent).
